Savaria® SL-1000 Stairlift

CONQUER YOUR STAIRS

If you want the freedom of mobility in your home and find stairs difficult or impossible to manage, the Savaria SL-1000 stairlift could be the ideal solution for you. Glide up and down in comfort and safety using the onboard controls or with the help of remote control operation. The constant-charge battery operation means that your stairlift works even through a power failure giving you peace of mind.

Savaria® SL-1000 Stairlift

CONQUER YOUR STAIRS

- Constant-charge battery operation that charges along the rail to ensure that the stairlift is always charged and ready to go, even if there's a power failure (several cycles of up/down)
- Comfort foam seat and back rest with wipe-clean synthetic leather
- Adjustable arm width (up to 21"/533 mm wide) and capacity up to 350 lbs
- On-board controls with soft start and smooth stop operation
- Seat swivels and locks into position for safe on and off seating, retractable seat belt
- Infrared (wireless) remote control included
- Obstruction sensors located on the carriage and the anti-skid fold-up footrest to stop the chair if it meets an object in both up or down travel directions
- Folds up to less than 14"(35 cm) to allow easy access to the stairs when unit is not in use
- Reliable rack and pinion drive with sturdy, aluminum extrusion rail construction
- Unit can be mounted on either side of stairs determined at time of installation
- Fast installation and onboard diagnostics to identify any service issues
- Options: Flip-up rail to accommodate door or entrance way at base of stairs, emergency stop button and overspeed brake
